## SUPER FLEA COMBO\*

USB Rechargeable Lights

Part# 7023265

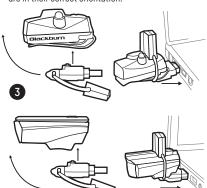

Remove rubber cover from charger

Install charger in standard size USB port.

Be certain that both the USB port and the charger are in their correct orientation.

Attach charger cradle to the light.

Do not force them into place. Contacts are magnetic and will self-align. Wrap elastic strap around light.

When correctly attached to light and charging source, LED indicator will flash RED when charging

**WARNING:** DO NOT PLACE anything other than FLEA lights on USB Charger contacts.

When charging is complete, LED indicator will flash GREEN. Remove light and reinstall rubber cover on charger.

### MAKE SURE TO FULLY CHARGE LIGHT BEFORE FIRST USE.

GREEN = 100% to 75% Battery Capacity (lit for 5 sec after button press) ORANGE = 75% to 25% Battery Capacity (lit for 5 sec after button press) RED = <25% Battery Capacity (lit when light is running constantly)

NOTE: For most accurate Fuel Gauge reading run light until it turns off automatically then charge until full (GREEN blinking LED).

### MOUNTING FRONT:

Option 1: Thread included silicone hook and loop closure strap through light body to attach Super Flea to handlebar. Option 2: Clip Flea to helmet mount, head mount or hat mount. (Available separately Part #2024357).

#### MOUNTING REAR:

Option 1: Grip silicone strap mount and squeeze together. While squeezing mount, place in between metal clip on back of Super Flea Rear and release the mount so that ridge on the side of the mount engages the metal clip. Silicone straps can now be wrapped around seat post or bicycle frame.

Option 2: Clip Super Flea Rear to accessory strap or belt loop. Make sure light is firmly attached to mounting surface.

WARNING: Potential choking hazard to children. This light is extremely bright—do not aim directly into eyes. UK ONLY: When used for cycling, this light should be used in conjunction with a British Standard 6102/3 cycle light.
