FLEA 2.0 COMBO"

USB Rechargeable Light

Part# 2022276

Attach charger cradle to the light.

Do not force them into place. Contacts are magnetic and will self-align

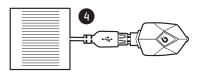

Remove rubber cover from charger

Install charger in standard size USB port

Be certain that both the USB port and the charger are in the correct orientation. When correctly attached to light and charging source, LED indicator will flash RED. When charging is complete, LED indicator will flash GREEN. Remove light and reinstall rubber cover on charger.

WARNING: DO NOT PLACE anything other than FLEA lights on USB Charger contacts

Using Optional USB Solar Charger (Part #2015577) See steps 1-2 above. Install charger into USB port on Solar panel. Place Solar panel in direct sunlight for fastest charging.
